

## Installing ZoomText 9.02

ZoomText does not work if ZENworks is installed during the installation

Here are the steps to get ZoomText installed

1. Log in as someone with Administrative rights to the desktop
2. Uninstall ZEN works through Control Panel>Add/Remove Programs
3. Reboot
4. Login into NetWare as the appropriate Register user
5. Login into the local workstation as Boelocal
6. Click on **OK** on the Problem with Shortcut prompt
7. Using My Network Places, navigate to the ZoomText client folder  
\\XXXXnw5fps01\VOL1\APPS\ZoomText\ZT9ClientSetup
8. Run the **Setup.exe** app
9. Check the **Disable Speech output during Setup** option, click on **Next**
10. Check the **I accept these terms box**, click on **Next**
11. Select the **Automatic installation** option, click on **Next**
12. Files will begin copying
13. Uncheck the **Run ZoomText automatically** option, click on **Next**
14. Click on **Finish**, PC will reboot
15. Login into NetWare as Admin
16. Login into the local workstation as Boelocal
17. Click on **OK** on the Problem with Shortcut prompt
18. Test ZoomText
19. Close ZoomText
20. Using My Network Places, navigate to the ZEN Works folder  
\\XXXXnw5fps01\SYS\PUBLIC\zenworks\ZFDAgent\English
21. Run the **ZFDAgent.msi** app
22. **(DO NOT RUN the ZFDAgent.msi in the root of ZFDAGENT, that one is version 4)**
23. Click on **Next** at the opening screen
24. Accept the license agreement and click on **Next**
25. Click on the Workstation Inventory arrow and select **This feature will not be available**
26. Click on the Workstation Imaging arrow and select **This feature will not be available**
27. Everything else should be white
28. Click on **Next**
29. Leave the Middle Tier Server box **empty**, click on **Next**
30. Check the **Launch Application WINDOW** option, click on **Next**
31. Check the **Limit Application Launcher** option and type in **Bridgeport** for the tree name, click on **Next**
32. Click on **Install** to begin
33. Click on **Finish** to end
34. Click on **Yes** to reboot

35. Login normally as Register
36. Go to the Control Panel
37. Open the ZENworks Agent Options
38. Click on **Settings**
39. Check the **Enable volatile user Caching**
40. Set the **Days to cache** to 365, click on **OK**
41. Click on **Close**
42. Close all windows
43. Test ZoomText again
