

St. Vincent's Mobile Mammography Van

At St. Vincent's SWIM Women's Imaging Center, our team of medical professionals continues in its quest to bring the benefits of regular breast cancer screening to more residents of Connecticut through their mobile mammography van. A sleek, spacious vehicle outfitted with state-of-the-art digital technology, St. Vincent's mobile mammography coach offers an attractive interior that provides privacy and comfort. Coupled with our expert staff of physicians, radiologists, nurse navigators, technologists and support staff, the Mobile Mammography is the latest tool in the arsenal for diagnosis of breast cancer in its earliest stages.

The digital advantage

- Equipped with the Senographe Essential Mammography System, which offers swift and optimal imaging and faster time between exposures
- Screenings performed more quickly and efficiently, while providing exceptional patient comfort
- No film processing required, allowing almost immediate review by the technologist.
- Improved image quality on dense breast tissue
- Off-centered paddle for greater comfort on small breasts
- Decreased overall exam time—up to 40%

It's a clearer picture.

The mobile unit and digital mammography equipment travels and screens patients throughout the state. **Organizations may schedule a screening location by calling 203-576-5505. For more information visit www.stvincents.org**
