

Summer Packet

Name: _____ **Grade:** 3

This Packet Belongs
To:

SUMMER PACKET

**Getting Ready for
3rd Grade!**

Dear Families,

Did you know that studies have shown that children lose one to two months of math and reading skills over the summer!

Don't stress! There are ways to prevent this. By continuing to practice and review skills, students will maintain their level of academics and even continue to grow!

Please use this packet over the summer as a way to ensure continued success and growth. In addition, make sure your child is reading on a daily basis, even if it is only for ten minutes a day. Have a wonderful summer!

Sincerely,

Ms. Commodore & Ms. Malachowski

3rd Grade TEAM

Summer Reading Log

Keep track of all the books you read this summer. As you finish a book, write the title on the line.

Summer Reading Goal:

15

books!

Number	Title of Book

Number	Title of Book

Writing

Ice cream is the best dessert?

Do you agree? yes or no

What are 3 reasons why you agree or disagree? Make sure to write in complete sentences.

1

2

3

Reading

Splish Splash

Every summer, Miley and her family pack up the car and head to their favorite water park. The water park is called Splish Splash and it has a ton of water slides and fun rides. Miley's favorite rides are the ones where you get to sit in a tube. She likes the tubes that hold two people so she can ride with her sister. The water is always cold but Miley doesn't mind. Miley's sister prefers the rides where the slides shoot you into the deep water. Miley doesn't like those rides because she's not a great swimmer. Maybe next summer Miley will be ready for the deep end!

Reading Continued

Answer in complete sentences.

Who is the story about?

When does the story take place?

Where does the story take place?

Writing

A topic I know a lot about is

One fact about this topic is:

Another fact about this topic is:

A supporting detail is:

Reading

Read a story and sequence the main events. Write in complete sentences.

Title

A large rectangular box with a dotted border, intended for the student to write the title of the story.

First, _____

Three horizontal lines for writing the first event.

Next, _____

Three horizontal lines for writing the second event.

Finally, _____

Three horizontal lines for writing the final event.

Reading

Dogs are a type of animal that you can own and keep as a pet. Dogs are by far the best pets to have and here is why.

First, dogs are super friendly. They love to interact and give you attention. They can give you attention by licking you or jumping playfully on you. This is their way of showing you how much they care!

Second, dogs are fun to take for walks. You can put a leash on them and take them around your neighborhood, or even to some parks. You can't take other animals on walks like this!

Lastly, dogs are very smart. You can teach a dog how to do cool tricks. Dogs can learn to sit, stay, give you a paw, roll over and more. It is amazing the things they can learn.

There really aren't many pets that compare to dogs. Dogs are awesome animals that make a perfect addition to any family!

Reading Continued

Answer in complete sentences.

What is the author's purpose?

- a to persuade b to inform c to entertain

How do you know?

What is the main idea of the passage?

Reading

Snow was falling all around. Andres couldn't wait to go outside and play. He grabbed his mittens and hat and ran out the door.

What season is it?

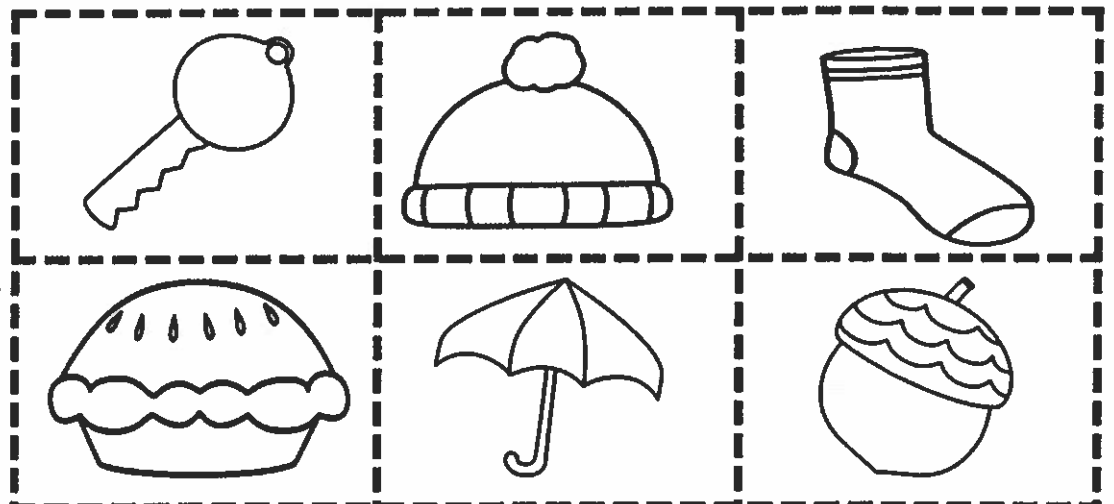

How do you know?

How is Andres feeling?

How do you know?

Phonics

12. Is 66 odd or even? _____

Here's a glance at third grade math. You can get a jumpstart at learning your multiplication facts.

How to use: Fold the paper on the line so partners that are facing each other can see one side each. One partner will solve the equations for one minute while the other partner checks their answers. They should answer from left to right (since the problems are numbered from #1-#50). If they miss any answers, their partner is to respond, "try again." Partners may help each other when they are stuck. When the one minute is up, have students make note of the number that they finished. Switch jobs (one "answers", while the other is the "checker"). Then both try again and try to beat THEIR OWN previous score.

JULY

choice board

Color in a box for every activity you do!

Go to the beach	Make something with clay or play-doh	Play in sprinklers	Play a game with your family	Go on the swings
Try a new food	Build something with rocks and sticks	Write a letter to your future teacher	Watch some fireworks	Collect objects from outside and make a graph
Roller blade or skateboard	Make a list of your fav. summer foods	Go for a long walk	Find nickels and count how many	Read a book at the park
Go on a slide	Draw a detailed picture and label it	Camp in your backyard	Write all the equations that make 10	Play basketball
Write a poem about the 4 th of July	Do 10 sit ups	Have a BBQ	Make a list of the 2D shapes you know	Go swimming

AUGUST

choice board

Color in a box for every activity you do!

Write why you're excited to go back to school	Go on a jungle gym	Have a picnic	Bake something on a rainy day	Write a list of things you see outside
Play school with someone	Read to a stuffed animal	Fly a kite	Write about a favorite vacation	Go to a river or a lake
Go for a hike	Play catch with someone	Read a book at the beach	Make a list of words that start with A	Organize your play area
Write a poem about summer	Label the 3D shapes around your house	Write a note to someone you love	Play soccer	Build something with plastic cups
Do 10 push ups	Make lemonade from scratch	Build a sand castle	Write or say numbers 1 to 200	Watch the sunset
