Health Benefits

- Supply polyphenols which may lower cholesterol levels, and reduce risk of heart disease and cancer.
- Grape nutrients may boost brain power with improved short-term memory, coordination, and balance.
- May help protect against cardiovascular disease.

FUN FACT

- Grapes are one of the oldest fruits known.
- Considered nature's candy because of their sweetness. Unlike candy, grapes are packed with vitamin C and other nutrients that help you stay healthy.
- Concord grapes are the only variety native to North America—other native fruits are blueberries and cranberries.
- Grown and harvested on all continents except Antarctica.
- 97% of all grapes sold in the U.S. are grown in California.
