

The **Fairfield Rotary Club** donated \$1,200 to purchase books for tutors to give to the students with whom they work to help them build home libraries. The books purchased through this grant make a difference in the excitement and engagement of children in reading. During the past school year 5,700 books were donated to students through this program. It is an easy leap to say that children who like to read and have access to enjoyable books will read more and thus improve their reading.
