

# BRIDGEPORT PUBLIC SCHOOLS PRESENTS

SUMMER CAMP

## Overview

An exclusive program that will introduce a beginning level of complexity and assignments to our attendees.

Girls Who Code provides students with the opportunity to learn the coding concepts of loops, variables, conditionals, and functions which can be used to form the basis of programming languages in a safe & supportive environment. It will help students to begin to see themselves as computer scientists and help them to build: Websites, Apps, Music, and/or Program a Robot!

Scan for  more information.

## Curriculum

Girls Who Code, with additional new and/or continuing daily activities, including online coding tests and games, as well as field trip(s). Graduation will be the culmination of a body of work completed during camp.

Graduation will be a culmination of elements learned during the program. Ultimately those interested will remain to form an afterschool for Girls Who Code.

## Enrollment

Each applicant must complete an application that contains parent/guardian permission. See a copy of the attached here, or scan  for an electronic form.
