

The main question for parents of school-aged children, today, is: How can I prepare my child for school regardless of the Reopening plan? By staying positive and proactive in every situation, parents influence their student's attitude.

By now, parents should have already informed their school if they are keeping their child at home for distance-learning, or sending them to school half a day, two days( hybrid plan) or full five days. School districts desperately need 100% response from our families in order to reopen safely based on confirmed numbers. It only takes one student from one class without a seat to send the entire school into hybrid plan.

#### Checklist:

1. Student is aware of the importance of social distancing.
2. Student is aware of the importance of staying safe.
3. Student is aware of the importance of not touching their face.
4. Student is aware of the importance of not touching surfaces.
5. Student is aware that they may not share anything with anyone.
6. Student knows how to put on a mask properly.
7. Student knows how to takeoff the mask properly.
8. Student knows how to wash hands correctly.
9. Student knows how to use sanitizer properly.
10. Student knows how to clean up surfaces around him if needed.
11. Students can use the restroom properly and safely.
12. Student knows how to zip, button, snap and tie independently.
13. Student knows how to open food packaging independently.
14. Student can hold writing or coloring tools correctly.
15. Student's doctors have completed all physical forms and vaccines.
16. Students have alternate plans in case of delays, half days or cancellations
17. Students have planned for being picked up in case of illness?
18. Student has practiced playing by themselves.
19. Student has practiced staying in one seat for more than 15 minutes.
20. Student is aware that there's no walking around in the classroom or halls.
21. Student has practiced how to separate quickly from their family member at arrival.
22. Student has practiced daily routines at home to enforce school routines.
23. Student has practiced how to use electronic devices independently.
