

9.6.19

Dear Parents and Guardians,

My name is Ms. Maggiore and I am the School Counselor at Blackham School. I will be working with your 8th grade child for high school planning. Please note that more information will be shared with families in the next few weeks. Students will hear updates regarding high schools during morning announcements and will be attending presentations from several local high schools. I will be passing out applications as well as assisting students in the classrooms towards late September/early October when applications become available.

***Please join me at Back To School Night on Thursday, September 12th, 2019. I will be in the gym and then visiting 8th grade classrooms!**

***Please be advised that private School applications (Kolbe Cathedral, Laureton Hall, Sacred Heart, Fairfield Prep., Notre Dame, etc.) as well as Charter Schools – are all available online. Students/guardians must contact schools directly for more information. Applications will not be available for private schools. Students and families must research private school options on their own. However, I will be able to assist students in the process.**

Families are encouraged to please start discussing high school options with your child now so when more information is available, an informed decision can be made. Also, please encourage your child to share all high school information they receive with you. Please view the back of this page for high school information to start researching options. Please view the back of this page for a full list of high school choices.

Please do not hesitate to call me with any questions/concerns!

Sincerely,
Ms. Maggiore
School Counselor
