

BRIDGEPORT MILITARY ACADEMY

*A First Responder High School focusing on
Police, Fire, Emergency Medical, Homeland Security and Military Sciences*

Bridgeport Military Academy offers cadets the opportunity to experience their secondary education in a challenging environment with an emphasis on excellence in academics while also exploring careers in public safety.

Through partnerships with the fire, police, emergency medical services, the military services and other public safety departments, cadets are provided with real world, hands-on opportunities to obtain certifications in such areas as CPR, First Aid, EMT and FEMA courses, including but not limited to 911 communications protocol.

Bridgeport Military Academy cadets selecting a themed career pathway as a First Responder will be engaged in studying a variety of topics within the listed areas of the Public Safety field.

Courses will require students to take an active role in hands-on activities, be critical thinkers, effective communicators, and disciplined in their daily behavior. This will allow the development of an understanding of the "rank structure" that is required in these career fields. Cadets will be prepared for these and other careers and higher education opportunities.
